Cómo usar estas fichas

Cada ficha presenta el fonema con tres palabras (inicial, media y final) acompañadas de su pictograma. Úsalas como cartas: enséñale el dibujo a tu peque, di la palabra exagerando el sonido objetivo, y pídele que la repita. **5-10 minutos al día** es lo ideal.

Seis claves antes de empezar

- **Poco y diario** mejor que mucho de vez en cuando.
- **Hazlo divertido** — concurso, juego de cartas, esconde la ficha.
- **No corrijas con dureza**: repite la palabra correctamente dentro de una frase ("sí, ¡un coche rojo!").
- **Celebra cada intento**, no solo los aciertos.
- **Un fonema cada vez**: empieza por el más fácil o el que casi tiene.
- **Si dura más de lo esperado por edad**, consulta con logopeda colegiada.

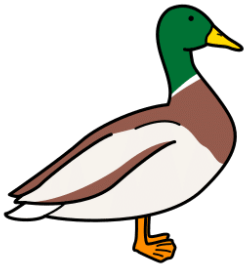

Edades esperadas de adquisición (Bosch, 2004)

Edad	Fonemas esperados
3 años	/p/, /b/, /t/, /d/, /k/, /g/, /m/, /n/, /ñ/, /f/, /ch/, /l/
4 años	/s/, /y/, /ll/, /x/
5-6 años	/z/, /r/ suave
6-7 años	/rr/ y sinfonos (bl, br, cl, cr, dr, fl, fr, gl, gr, pl, pr, tr)

Importante: estos rangos son orientativos. Si tu peque persiste en errores fuera del rango esperable, consulta con logopeda colegiada para descartar causas subyacentes (frenillo, hipoacusia, dislalia fonológica).
